SecureBack™ Security Case for New iPad® and iPad2

K67750EU

Product Description

Security, protection, comfort and even increased speaker volume all come together with the Kensington SecureBack™ Security Case for the new iPad®. The case offers a strong, yet lightweight three-piece construction that protects your iPad from scratches and bumps. More importantly, the Kensington SecureBack Case protects your iPad from potential thieves. Simply by adding a security bar with a built-in ClickSafe® Security Anchor, the SecureBack allows you to secure your iPad in just one click against theft using a ClickSafe® laptop lock. The ClickSafe® Lock anchors on the same side as the 30-pin connector for improved cable management. (ClickSafe lock sold separately.)

The Kensington SecureBack™ Security Case for the new iPad® is compatible with the Apple SmartCover and is very easy to install on the case and remove as it snaps on easily. Once clicked on the Smart Cover also folds up to provide two stand angles; one for typing, one for viewing. (Apple Smart Cover sold separately.)

The ingenuous security bar does more than protect your iPad—it was also designed with a sound deflector that boosts the volume of your iPad speaker with no additional battery drain. So protect your iPad from theft and damage whilst ensuring full compatibility with a SmartCover cover stand with the Kensington SecureBack™ Security Case for the new iPad®.

Features

- SecureBack™ case protects back and sides from bumps and scratches
- Secures in one-click with ClickSafe Lock (sold separately)
- Use with your existing Apple Smart Cover for screen protection and a stand with typing and viewing angles
- ClickSafe Lock anchors on same side as 30-pin connector for improved cable management
- Built-in sound deflector increases volume from iPad speakers
- Maintains slim design while adding security and protection
- ClickSafe Lock and Apple Smart Cover sold separately
